

Camille Pignodek
Plein-Air Colorist

Less Prep. More Painting.

Ideal for plein air — your paints are already laid out & ready for use

Laser-etched grid helps you keep your colors organized just the way you want

Save paint by storing your colors in the freezer between painting sessions. (same size as an ice cube tray)

Storage in freezer is safe for oil paints and can keep them fresh for months!

PAINT-SAVER PALETTE by Fine Art Tech

Be ready to paint instantly with your complete assortment of colors.

Convenient — your color supply can be moved between your studio and plein air setup in seconds

Attaches to any easel and positions your paint supply up off your mixing surface

Cost effective — pays for itself many times over in terms of paint, time, and energy saved

Designed and crafted in the USA

PAINT SAVER PALETTE

by Fine Art Tech

Included clip-board lets you attach PsP to your easel separately from your mixing surface

Your complete assortment of colors is kept clean, organized and always ready for use

SureGrip housing holds PsP and keeps paints covered during storage and transport

Plastic storage & carrying case included for clean, convenient portability

Arrange, transport and store your colors on a durable, lightweight, flat surface.

Unlike the many other “paint saver” devices on the market, the Paint-Saver Palette (PsP) lets you freely access your supply of colors unencumbered by tray walls and paint wells. Especially helpful when using a painting knife, the PsP can be kept separate from your mixing surface — leaving that area completely clear for quick, easy cleanup, during and after a painting session.

SAVE TIME | Start painting quickly, with your colors laid out and ready to go. Stop painting just as quickly... simply slip loaded palette into its housing.

SAVE PAINT | Lay out plenty of pigment (paint like a millionaire) without worrying about wasting paint. Store and preserve unused colors in freezer.

SAVE SPACE | Load, and reload your palette at home... no need to bring a paintbox packed with your entire color assortment. Carry a set of partially used-up tubes in case any colors need replenishing.

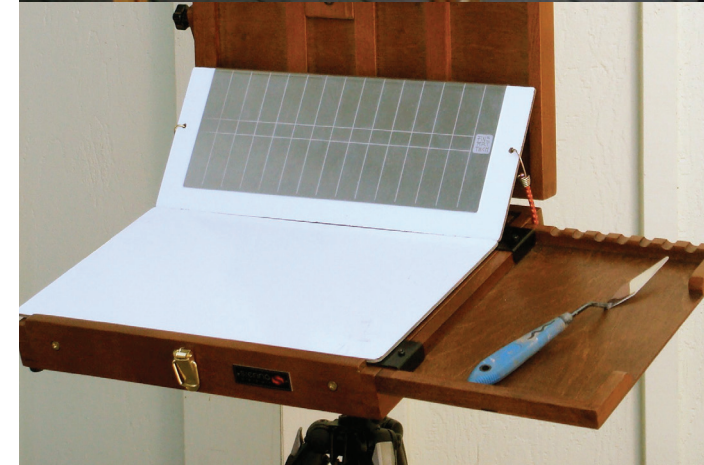

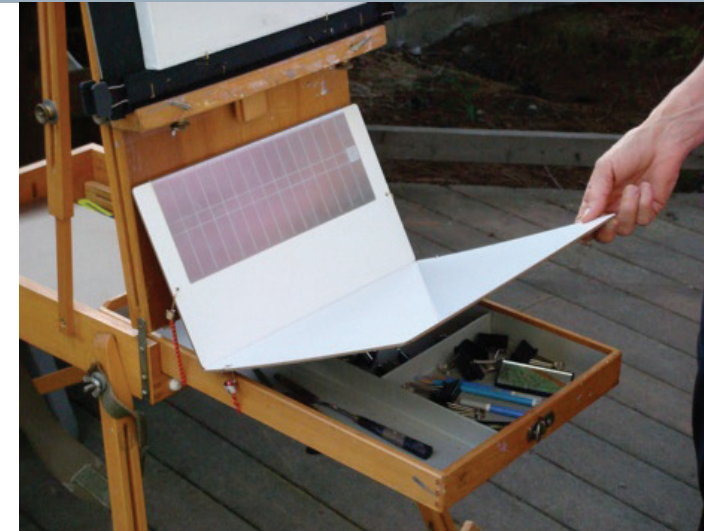

SAVE MONEY | On paint you might have wasted and on workshop or class time that you can now spend on painting instead of on getting ready to paint.

Paint-Saver Palette Kit | \$89 + tax and shipping

Kit includes everything you need to get started:
Paint-Saver Palette | SureGrip Housing | Basic Clip-board
Two 10" Bungee Cords | Plastic Storage & Carrying Case

PsP side view shows clip-on function ▷

PsP can be inclined to shield your color supply from direct sunlight
Easily mounts onto most easels and pochade setups
